Sand Permit: George Berg is the owner of the property and is here to request sand removal. Sand removal is to rebalance the field and replace with good dirt to farm. Will use the sand for his property to build a pole barn and for his brother. Making drives to enter the field that they already farm.

We don't want this to be going on forever, so what is your time span you are looking for. His reply was 10 years and would like 10 acers. They will be taking 6" off and then putting dirt back on.

Anne Gies would like it if the trucks would have a cover so nothing is blowing up. Anne Gies also asked how many truck loads a day. George said only a couple a once in a while.
